

SCHOOL CONNECT

REVOLUTIONISING THE RECYCLING PATTERN

Join hands in helping to raise awareness and funds to contribute towards a sustainable, eco-friendly environment.

School Connect began to serve schools, communities, and charities with free clothes recycling banks to assist them in reaching a healthy and eco-friendly environment.

We encourage schools to invite the community to recycle their unwanted clothes to raise more finances, achieve the eco-goals, and, most importantly, teach students about the benefits of recycling.

An apple tree is gifted to mark a recycling milestone achievement for every 1000 pounds raised by the school via a recycling bank.

And obviously, the involvement and efforts of kids never go wasted.

School Connect wishes to help build a recycling garden on the grounds of every school via this initiative.

What could be better than teaching school children about recycling and learning about the benefits while receiving much-needed funds.

Happy Recycling!
